1. The following figures show production of the firm of Meier & Weichelt in Leipzig for May and June 1947 [redacted]  
[redacted] Detailed breakdown is given only for war production, principally caterpillar tracks. The remaining amounts not itemized constitute deliveries of spare parts and repairs.  
[redacted]
2. Meier & Weichelt is dependent upon imports of electrodes from the American Zone for operation of its blast furnaces. It is confirmed that it receives electrodes from C. Conradty, Rothenbach near Nürnberg. If this firm were to stop production or refuse delivery, [redacted] Meier & Weichelt production would fall considerably, since there is no electrode producer in the Russian Zone.

### 3. Production Figures of Maier & Weichelt:
